MASSLI~1.doc

Hi John. The documents we discussed yesterday are enclosed in (I hope) two different languages, one of which should be intelligible to you and your team. We also owe you a tracking sheet to check off each of the brand styles as purchased. I will provide Monday morning because cannot (without assistance) figure out how to type a page horizontally.

We appreciate you setting up the call and allowing us to intrude on your day off. I will gladly fax hard copies of the enclosed documents to the entire team if you will please send me fax numbers. I did not include them on this note because they don't appear on my computer directory.

Thanks very much. HOpe you're having a nice weekend

Hi Ginny & Liz,

The TSM's that have been chosen to execute the pick up of the product for analysis are as follows:

Andy Larochelle 111401
Gordon MacKay 111505
Bruce Reback 110903
Carl Rabinovitz 111106
Bob Riendeau 111004

All have been given a heads up on what is expected and are ready to go. Hopefully all the specifics will be spelled out on our conference call on Monday, 10/13. For your information, I have set up the conference call

Number 1-800-403-2032
Participant Code 531957

I am off Monday but will be on this call so I can be kept abreast of the situation. I will ask SSD Terry hanson to participate also.

When you have the finalized instructions, I'd appreciate it if you could MS Mail them to me and I will forward to the appropriate personnel.

Have a good weekend - John
